

PLOTTING KOREANS.
(Correspondence Associated Press)
SEOUL, Korea, Nov. 18.—The police have arrested many Koreans who are alleged to have been secretly plotting for the independence of Korea in co-operation with sympathetic

pathfinders in Manchuria and Shanghai.
At the present high price of rubber the administration runs true to form in the enforcement with which it maintains rubber stamps at the capital.

OGDEN MAN ARRESTED FOR EMBEZZLEMENT
WINNEMUCA, Dec. 11.—Charles Gessas, taken from the train here Saturday by Sheriff Springer and Constable Moore on advice from Ogden charging him with embezzlement, was taken back to Ogden by a deputy sheriff. Gessas had \$2,000 in his pockets when arrested. It is said he was in the wholesale cigar business with his father and that during the father's absence in the east he absconded with the bank roll.

Under poison the system. There should be a prohibition law against anger.
The water wagon is now being used exclusively for sprinkling purposes and not for riding purposes.

ROAD BUILDERS GET A SURPRISE

On the government end of the Midland Trail beginning at McKinney's Tanks and extending to the forest reserve the engineers have run on a strata that is as surprising as it is hard to handle. This is a conglomerate resembling old concrete construction which extends quite a distance at a depth of eighteen inches from the surface. This formation may compel a change of plans by raising the grade instead of running the lines on the first survey, as it will be impossible to blast out the stuff at any reasonable cost. TNT has no effect as it simply blows out the plug without disturbing the ground. The federal engineers use TNT exclusively with the object of utilizing what was left over by the army.

What disposition will be made of the plans remains with Mr. C. T. Williams, a road expert who is on his way from the Ogden headquarters of the federal roads bureau at Ogden. Mr. Williams has had extensive experience in Arizona and for three years was head of the road department of Los Angeles county. P. A. Welly, engineer in charge, has had rough shodding during the cold weather, which deprived him of the services of several skinner men, and he is now in the market for three or four good men. A 2400 caterpillar arrived yesterday and will be used in plowing while a little Cleveland is used for pulling dump carts. The road has been opened for a mile and a half and culverts for the first five miles have been hauled out.

AIM TO SCRAP HOME RULE ACT

(Correspondence Associated Press)
DUBLIN, Dec. 27.—America is warned by the Freeman's Journal not to be deceived by proposals which may be made by the British cabinet committee on home rule. The Journal criticizes the plan of the cabinet committee so far as it has been revealed by the reports circulated in Ireland. The attitude of the newspaper is believed to represent that of the old Irish party. It says:

"The scheme proposes partition of its worst form, and it ensures the grip of the bankrupt wastrels of Whitehall on the solvent Irish purse. The authors know the fate that awaits the scheme. It has two purposes to throw dust in the eyes of America, and to enable the home rule act to be scrapped. The scrapping was decided on long before the committee was constituted or even contemplated. But in the uncertainty of affairs at Washington the scrapping has to be done under careful cover and under pretense of offering a settlement on much more generous terms than have ever been proposed before. The generosity can be measured by the proposed trick to keep the control of the Irish purse in British hands. America will not be deceived."

ROAD BUILDING IN THIS STATE

(By Associated Press)
OGDEN, Utah, Dec. 13.—Approval for the construction of several highways in Utah, Arizona and Nevada has been received by District Engineer J. J. Martin, of the forest service here, from Secretary D. F. Houston of the department of agriculture. Immediate efforts to secure cooperation in expense from the state governments will be made and it is believed work may be started on the new highways in the spring.

Secretary Houston also approved construction of the Current Creek road, a portion of the Midland Trail between Ely, Nevada, and Tonopah. The work will be seventeen miles in length and will cost about \$50,000. Approval also was given the Austin-Eureka section of the Lincoln highway between Ely and Reno which will be ten miles in length and cost about \$35,000. The state of Nevada will be asked for full cooperation on the two latter projects.

RADIUM GAS FOR TREATING DISEASE

(By Associated Press)
SAN FRANCISCO, Dec. 13.—Radium, while being used in the treatment of cancer, throws off a gas which may be caught in glass tubes and used in treating the disease with the same success that attends the use of radium itself. University of California experts are reported to have discovered.

The state university is rapidly becoming one of the most important radium distributing agencies in the country. Public spirited citizens are subscribing to a fund enabling the university to increase its supply.

CARSON CITY LADY COMMITS SUICIDE

Mrs. William Holmsooth, an old-time and much respected woman of Carson City, made a desperate and successful attempt at suicide at her home at 550 E. Telegraph street Tuesday.

The suicide was not discovered, however, until after 3 o'clock, when J. Berantz, driver of a motor, went to the house and found the woman's body suspended by a rope from the ceiling above a door. A chair on which she stood had evidently been kicked to one side. The body was cut down, life having been extinct for some time, and it was then learned that before the hanging Mrs. Holmsooth had, with a case or paving knife, cut both of her wrists, and also her throat, but in neither case were any arteries severed.

CAPTURE OF A BASE

(By Associated Press)
LONDON, Dec. 12.—The capture of Kharkov in southern Russia, which had been one of the bases of General Denikin, is announced in a Moscow official dispatch received by wireless today.

FRENCH GIFT TO LONDON

(Correspondence of Associated Press)
LONDON, Nov. 27.—President Poincare has sent the sum of \$1,000 to the lord mayor for distribution among the poor of London "in sincere thanks for the reception given him at the Guild hall on the occasion of his recent visit."

A man who believes in plain living and high thinking may be a genius but the bell boys don't follow him around.

ELKS' CHARITY BALL.

Don't forget the big social event of the year, the Elks' charity ball on Friday next. It not only means a big time for you, but that ticket

you purchase will mean a big time in somebody's home on Christmas day.
And conversely, it's a mighty poor life if you do weaken.

ENGLAND SELLING SOLDIER CLOTHES

(Correspondence Associated Press)
LONDON, Nov. 25.—The ministry of munitions is offering for sale 20,000 civilian suits the surplus of millions which were acquired for the clothing of soldiers after their demobilization.

On being demobilized, a soldier had the option of a suit of clothes or the equivalent in money, \$12. Thinking they could get better value for the money, large numbers of them took the cash.

CLARK COUNTY BANK BIDS IN HOME BONDS

The First State bank of Las Vegas was voted the highest and best bidder for the \$75,000 highway bond issue at the meeting of the board of county commissioners Friday and was awarded the purchase. The bid of the local bank was for par and \$1.55 premium, together with all necessary legal services and the furnishing of the engraved bank bonds.

There were three other bidders, the International Trust company, Bosworth Chaunt company and Keeler Bros.

Men admire athletic girls, but they marry the house kittens.

DID YOU SEE
THE MOVING PICTURES OF THE WORLD
FAMOUS BURKBURNETT OIL FIELD,
WHERE MID-BURNETT OIL ASSOCIATION IS
NOW DRILLING ITS WELL NO. 1?
Today may be the last day for you to buy stock in this Company. Have you gotten your shares yet? Our well is now drilling at 600 feet, and going down day and night. We expect to tap the oil at 1700 to 1900 feet, and by January 1st it should be flowing over the top.
Only a few shares of this stock remain for sale—and we expect to close these out by Monday. We may do so tonight.
